Join the Pledge

“I will mentor at least one nurse and promise to nurture his or her development of leadership abilities to become a positive change agent, influencer or strategic leader to help meet the demands of the Accountable Care Act in 2014. I will mentor in the area of my skills base and expertise as an established leader within my discipline. I will volunteer to for a minimum of six months as a mentor. The mentoring can be a combination of in person, phone calls or via email/Skype.”

The mentoring connection will be established by working collaboratively with the New York Future of Nursing Action Coalition and diverse partners committed to the mentorship of nurses. The pledge level goal for “Mentors For Nurses” is to sign-up 150 other people willing to mentor at least one nurse regardless whether a nurse is at the student, manager, director, or nurse executive level.
